Introduction

Founded in 2010, SOCECAP specializes in Electrical, Mechanical, and Construction services. Our success stems from strategic investments in a highly skilled workforce and an unwavering commitment to QHSE (Quality, Health, Safety, and Environment) standards. This approach enables us to deliver projects efficiently, safely, and with exceptional quality, consistently exceeding our clients' expectations

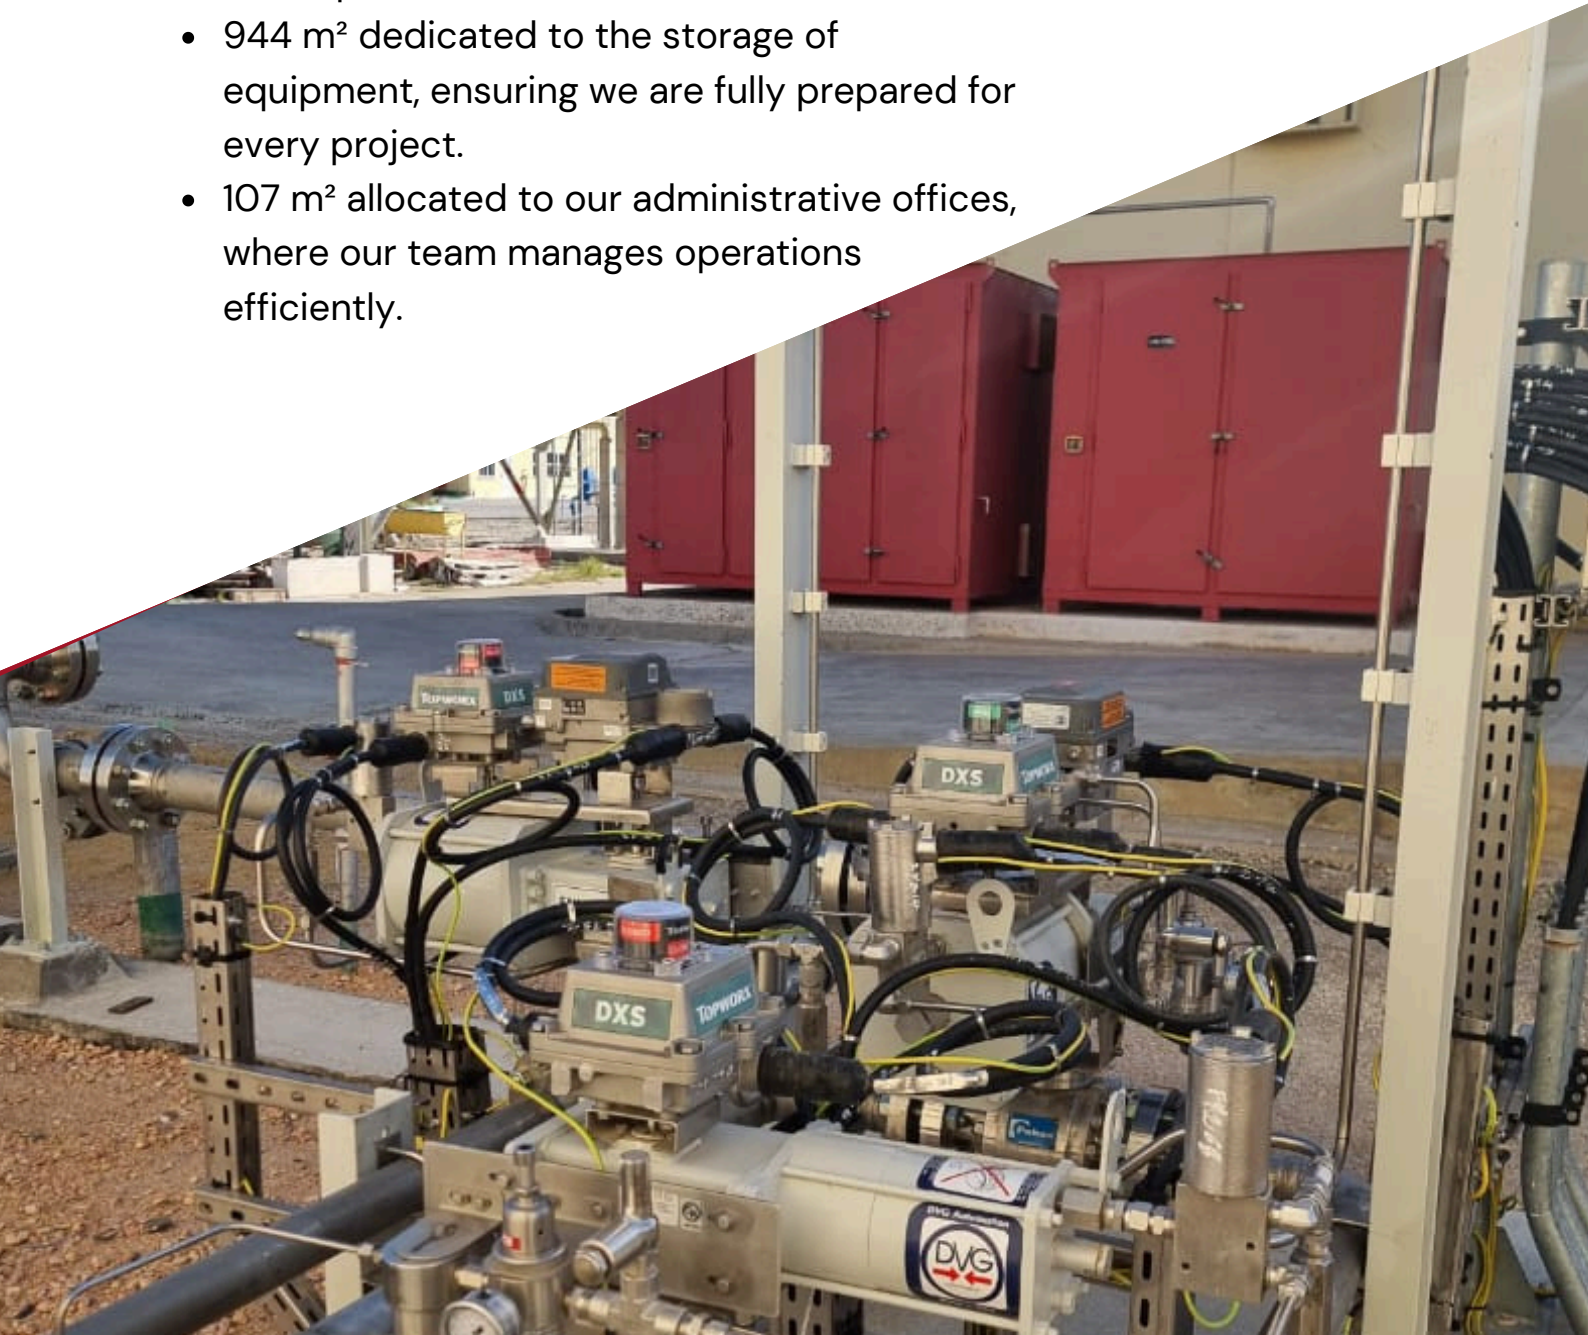

Company Overview

- Corporate Name: SOCECAP
- Share Capital: 100,000 DT
- Managers: Maamouri Salem & Ben Aissa Slah
- Legal Form: S.A.R.L
- Date Established: 2010
- Trade Register: B07101592010
- Bank: STB Agency El Haouaria

Our headquarters in El Haouaria include :

- 944 m² dedicated to the storage of equipment, ensuring we are fully prepared for every project.
- 107 m² allocated to our administrative offices, where our team manages operations efficiently.

Mission and Vision

SOCECAP | PAGE 5

➔ Mission

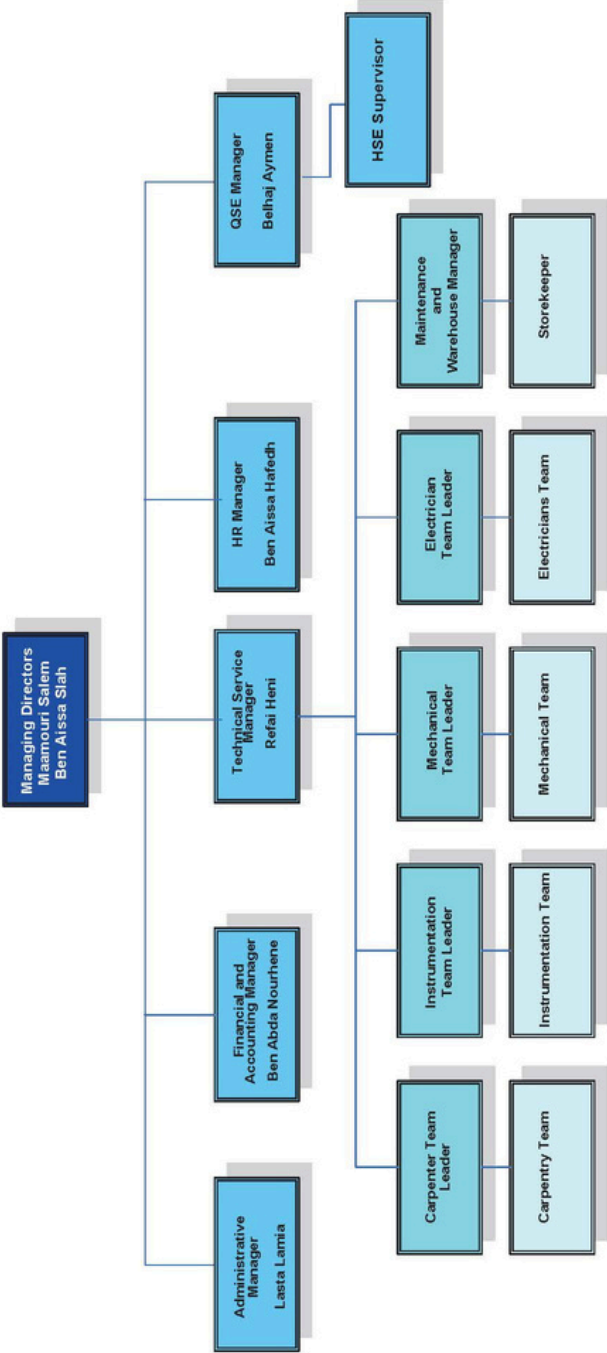

At SOCECAP, our mission is to provide innovative and dependable Electrical, Mechanical, and Construction solutions that uphold the highest industry standards. By leveraging our expertise, advanced technology, and unwavering commitment to safety and sustainability, we deliver exceptional value to our clients. We are dedicated to building long-term partnerships through superior craftsmanship, timely project delivery, and a relentless pursuit of excellence in every aspect of our operations.

➔ Vision

SOCECAP aspires to be a leader in renewable energy solutions, fueled by innovation and a commitment to sustainability. Through continuous investment in cutting-edge technologies and the development of our skilled workforce, we aim to deliver outstanding services while contributing to a greener, more sustainable future for our clients and communities.

Our Expertise

⊕ Electrical Services

- High-current and low-current industrial electrical installations
- Electrical cabinet wiring and commissioning
- Structured cabling for IT and telecommunication systems
- Installation of surveillance and anti-intrusion systems
- Cathodic protection and instrumentation

⊕ Civil Engineering

⊕ Mechanical Construction

- Industrial scaffolding
- Steel structure assembly
- Piping work
- Turbine assembly and maintenance
- Pylon assembly

Training

➔ Quality

SOCECAP is committed to Quality Management and proudly holds ISO 9001:2015 certification. A true culture of quality is ingrained at every level of the company, with all SOCECAP employees contributing to its growth. This culture is continuously enhanced through a process of ongoing improvement, always with the goal of achieving customer satisfaction

➔ Hygiene & safety

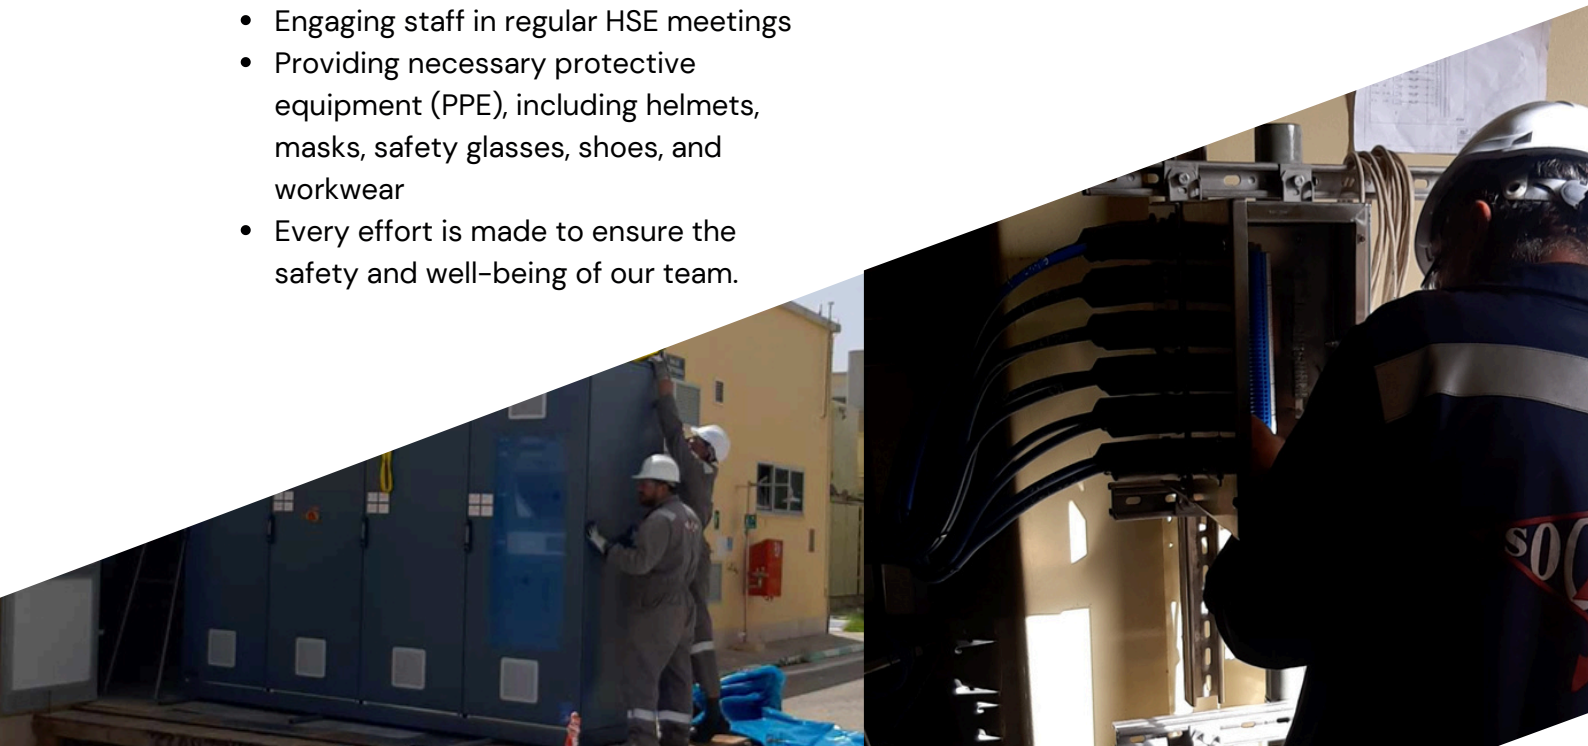

At SOCECAP, the safety of our personnel and customers is our top priority. We are committed to maintaining a safe working environment as a foundation for delivering high-quality service, with the goal of achieving "Zero Accidents." To ensure this, we adhere to ISO 45001:2018 standards and implement comprehensive safety measures, including:

- Identifying training needs in collaboration with the QSE department
- Engaging staff in regular HSE meetings
- Providing necessary protective equipment (PPE), including helmets, masks, safety glasses, shoes, and workwear
- Every effort is made to ensure the safety and well-being of our team.

➔ Environment

Commitment to environmental protection is fundamental to SOCECAP. In compliance with ISO 14001:2015, we carefully manage the environmental impact of our electrical, mechanical, and civil works by:

- Complying with all relevant environmental laws and regulations
- Ensuring systematic waste disposal in accordance with environmental protection standards
- Focusing on minimizing our environmental footprint while maintaining the highest sustainability standards

Training

In industries where continuous technical advancements are essential, ongoing skill development is a priority. At SOCECAP, maintaining and enhancing our expertise is a key focus. Our staff participates in specialized training programs tailored to their areas of expertise, ensuring we consistently meet and exceed client requirements. These training areas include :

**Fire Fighting & Basic
First Aid**

Working at Height

Confined Space

Electrical Accreditation

**Scaffolding Assembly and
Dismantling**

Chemical Hazards

**Mechanical handling and
lifting**

Client Portfolio

STEG

2010 – Present

الشركة التونسية
لل كهرباء والغاز
Société Tunisienne
de l'Electricité et du Gaz

- Meter connections
- Pole installation
- Transformer assembly

SERGAZ

2010– Present

A SeaCorridor Company

- Maintenance of lighting installations and electrical cabinet wiring
- Transformer maintenance
- Transformer assembly
- Air conditioner installation and maintenance

IMPES

2010–2013

service SPA

- Installation of new transformers at the Sergaz Korba station

SIAE

2016–2020

siae microelettronica

- Antenna installation and wiring

BORRI

2017–2018

- Disassembly and reassembly of inverters

➔ CALZAVARA 2016-2020

- Corrective maintenance of the Sergaz antenna network

➔ SELECT PLANT 2012-2012

- Civil engineering works for underground exterior lighting

➔ SOCRATE 2013-2014

- Installation works for pressure measurement system at STEG

➔ SCOGAT 2012- Present

- Installation of cables and civil engineering work.
- Fiber optic cable installation.
- Rehabilitation of the 5 TTPC cabins at the STEG sampling points.
- Turnkey installation and commissioning of air conditioners.
- Installation of surveillance cameras

➔ Tunisian Ministry of Defense 2016-2020

- Civil engineering works

➔ **CELGAS** 2010–Present

Celgas s.r.l.
Costruzioni, Montaggi e Manutenzioni Industriali

- Electro-instrumental and mechanical works at all SERGAZ stations
- Revamping works at TK2 SBIKHA SERGAZ – 2023
- Revamping works at TK1 SBIKHA SERGAZ – 2024
- Welding works for fiber optic cables

➔ **LF** 2010 – Present

**QUADRI ELETTRICI
E AUTOMAZIONE**
s.r.l.

- Electrical works and electrical cabinet wiring

➔ **SDI** 2020–2020

- Installation and cabling of the IT network for SERGAZ stations

➔ **SA FIRE** 2019–2020

- System replacement and complete installation of the fire protection system for the vents at the SBIKHA station
